

# National Civil Aircraft Development Design Bureau

CSIR-NCAD

National Civil Aircraft Development (NCAD) will establish a design bureau that will provide the seeding for civil aircraft design in the country. Initially, it will be created with experts and engineers from NAL, HAL, DRDO, ADA and ISRO. The structure will be augmented with hiring of specialists with experience in the industry, fresh bright young engineers, through the website using online mechanisms.

## RECRUITMENT

Design Engineers recruited with specialization in disciplines like Aerodynamics & CFD, Structures, Propulsion, Flight Mechanics, Avionics, General Systems, Layout and CAD

Retired specialists from HAL, DRDO, ADA & ISRO with expertise in aerospace engineering hired as Senior Consultants

Scientists from a number of divisions of NAL like Structures, Advanced Composites, Flight Mechanics and Control, Aerospace Electronics and Systems, Propulsion, Computational & Theoretical Fluid Dynamics, Experimental Aerodynamics, Surface Engineering and others are working closely with the core design team on the NCAD program

We are looking for bright young engineers and experienced specialists in various aerospace related disciplines for NCAD program. For more details visit: [www.nal.res.in/ncad](http://www.nal.res.in/ncad)
